Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-12, drawn to an apparatus of a recycling device, classified in class 241, subclass 100;

Group II. Claims 13-20, drawn to a process for recycling, classified in class 241, subclass 30.

Inventions of Group I and Group II are related as apparatus and process for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus of Group I as claimed can be used to practice another and materially different process and not necessarily the specific process of Group II. For example, the apparatus of claim 1 can be used to practice another and materially different process which does not require the details of the control panel, including a first pulley, a second pulley, a flexible band, a first handle, a second handle, a first hinge, a second hinge, and a third hinge, as claimed in claim 13.

Conclusion

A telephone call was made to the attorney of record, Anthony Campbell, on February 28, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Application/Control Number: 10/646,045 Page 3

Art Unit: 3725

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason Y Pahng whose telephone number is 571 272 4522. The examiner can normally be reached on 9:00 AM - 7:00 PM, Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Derris Banks can be reached on 571 272 4419. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
